

Internship Project Report

Task 1: Personal Portfolio website Development

Puthi Amrutha Lahari

Computer science student

May 31, 2026

—

Lakireddy Bali Reddy College of
Engineering

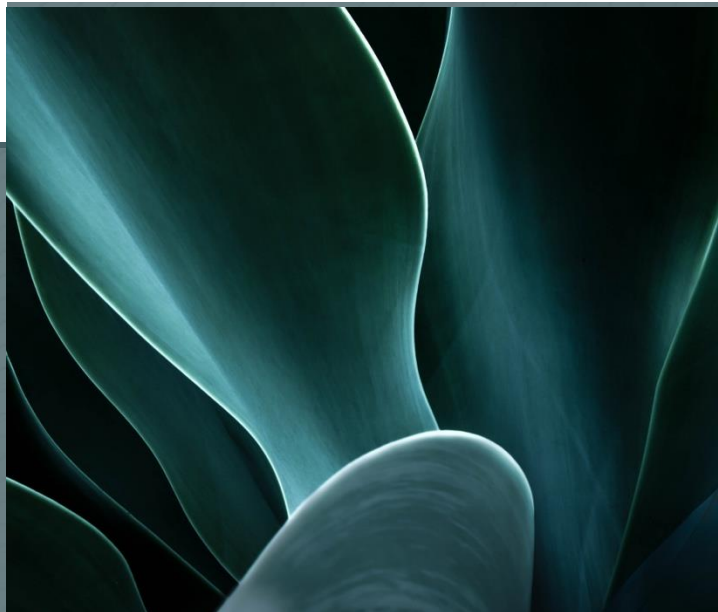

—

InterSpark-Frontend Developer

Project Description

This project is a Responsive Portfolio Website developed using HTML5, CSS3, and Bootstrap 5. The website is designed to showcase personal skills, projects, and contact information in a professional and attractive manner.

The website is fully responsive and works smoothly across desktop, tablet, and mobile devices.

Documentation

Objectives:

- Learn responsive web design
- Build modern UI layouts
- Understand Bootstrap framework
- Improve frontend development skills
- Create a professional portfolio website

Technologies Used:

Technology

- ❖ HTML5
- ❖ CSS3
- ❖ Bootstrap 5
- ❖ Bootstrap Icons
- ❖ Google Fonts

Purpose

- ❖ Structure of webpages
- ❖ Styling and responsiveness
- ❖ Responsive layouts
- ❖ Icons and UI enhancement
- ❖ Typography

Output :

The project includes multiple sections such as Home, Skills, Projects, and Contact with modern UI styling and smooth navigation.

The website works efficiently across desktop, tablet, and mobile devices, providing an improved user experience.

Conclusion :

The Personal Portfolio Website was successfully designed and developed using HTML, CSS, Bootstrap, and JavaScript. The website provides a professional platform to showcase my academic background, technical skills, projects, certifications, and contact information.

Through this project, I enhanced my web development skills, gained practical experience in responsive design, and learned how to deploy websites using GitHub Pages. This portfolio serves as an effective representation of my abilities and achievements, helping me build a strong online presence for future academic and professional opportunities.
